

# Conceptual Framework of OER based E-learning

## Dr. Sharkar Md. Numan

<http://www.telresources.org/resource76>

TYPE	Activity
LEVEL	elementary,tertiary
MODALITY	blended
SUBJECT	elearning
TECHNOLOGY	internet resource,text-based,image-based,presentation
KEYWORDS	conceptual framework,oer,elearning,human anatomy and physiology

Students will be able to understand about conceptual framework of OER and eLearning. We know that learning by doing is the best way to memorizing a difficult topic and to know the unknown. By birth, human beings have a short-term and long-term resource of memory and human brain acts as a storage device. To synchronize the physiological function, it needs to correlate its all systems properly. Education is the harmonious development of the body, mind, and soul. Education has a lot of defined components. By studying different educational processes, students can correlate and develop a conceptual framework of OER and eLearning with synchronizing the different parts of the human body.
